## ***Press Release: Raising the ownership threshold to the SIFs is a beneficial event for the Romanian Capital Market and for the Financial Investment Companies.***

The Board of Directors of SIF Moldova, which met on December 15, 2011, took note of the decision of the Chamber of Deputies regarding the increasing of the ownership threshold to the SIFs from 1% to 5%, considering that this event is beneficial for both the development of the Romanian Capital Market and the Financial Investment Companies, sending a positive signal for increasing the confidence of the domestic and foreign institutional investors in the Romanian Capital Market.

Attracting strong institutional investors in SIF Moldova's ownership structure creates favorable conditions regarding the implementation of the investment policies, the change of the Articles of Incorporation and the development of the company in accordance with the principles of the corporate governance.
